PROFESSIONAL SUMMARY

WordPress developer with 6+ years of experience building custom themes and plugins from scratch for client sites across e-commerce, lead generation, and content platforms. Skilled in WooCommerce, Advanced Custom Fields, custom post types, AJAX-driven features, third-party API integrations, and site performance optimization. Experienced in server-level troubleshooting on Plesk-hosted environments and in leading a development and digital marketing team.

WORK EXPERIENCE

IFormatLogic

Oct 2020 - May 2022

JUNIOR WORDPRESS DEVELOPER

Palanginan, IBA, Zambales, Philippines

- Developed and maintained websites using HTML, CSS, JavaScript, and jQuery, ensuring a consistent and seamless user experience across all platforms.
- Constructed custom WordPress themes from the ground up, leveraging Advanced Custom Fields and incorporating efficient builders like Elementor for enhanced development speed.
- Collaborated in translating mockups into operational websites, integrating AJAX and JavaScript to exceed client expectations.
- Streamlined workflow processes by effectively using page builders, boosting design customization and enhancing overall project quality.
- Emphasized responsive design principles to create visually appealing and highly functional WordPress sites.

TechZ Digital

May 2022 - Present

SENIOR WORDPRESS DEVELOPER

Nov 2024 - Present

- Lead Team Raven, a web development and digital marketing team, handling task allocation, code review, and delivery across concurrent client projects.
- Build custom WordPress themes and plugins using Advanced Custom Fields and Custom Post Types, following WordPress Coding Standards and OOP principles for modular, maintainable code.
- Develop custom AJAX filtering and feed systems with optimized queries to keep content-heavy sites fast.
- Configure and troubleshoot WooCommerce stores, Gravity Forms workflows, and SMTP email delivery (Brevo) across client sites.
- Diagnose and resolve server-level issues on Plesk-hosted environments, including PHP configuration, caching, deployments, and migrations.
- Handle site security incidents: malware cleanup, recovery, hardening, and migration to clean environments.

MID WEB DEVELOPER

May 2022 - Nov 2024

- Developed and maintained responsive websites using HTML, CSS, JavaScript, and jQuery, significantly enhancing user experience and functionality.
- Designed and implemented custom WordPress themes incorporating Advanced Custom Fields and Custom Post Types to meet diverse client needs.
- Utilized page builders like Divi, Elementor, and Cornerstone to streamline development processes, improving project turnaround times by ~20%.
- Converted design mockups into fully functional websites using HTML, JavaScript, and AJAX, catering to specific client requirements.
- Focused on creating bespoke WordPress solutions that drive user engagement and satisfaction through modern, responsive designs.

EDUCATION

POLYTECHNIC COLLEGE OF BOTOLAN

2016 - 2020

Bachelor of Science in Information Technology
